MEDIA RELEASE

4 May 2021

Site works are underway for LCC!

As the LDC team continue to work with the Larrakia Working Group and design team to finalise the Larrakia Cultural Centre's (LCC) detailed design, we are excited to announce that works have started on site.

The Larrakia Working Group met with the design team this week to review the 10% design milestone. The design incorporates the latest considerations put forward by the Larrakia Working Group. The Larrakia Working Group met several times as a group and with the designers to share their inputs into the LCC's look, purpose and connection to the site.

The Detailed Design of the LCC is being funded through the City Deals. The LDC project leadership team is enthused to continue working with the Larrakia Working Group and funding agencies (Dept. of Infrastructure, Transport, Regional Development and Communications & NIAA) to deliver this important cultural development to the Territory.

Whilst the Larrakia Working Group and designers have been working on the design, the surveyors and geotechnical engineers have been provided access to commence site investigations.

The commencement of site investigations signals the continued development towards the construction and opening of the LCC.

The LCC will bring about the establishment of a Centre that is 100% focussed on the promotion and sharing of Larrakia language, culture, art and history with Territory locals and the world.
